Skill Levels To ensure that all performance levels are fairly matched, we offer shooters the choice of one of the three specified classes:

- **Newbie** (newcomer in DPSA) is applicable for all shooters, which have no experience with airsoft weapons and participate for the first time.
- **Rookie** (beginner in DPSA) is applicable for all shooters, which have experience with airsoft weapons, but not with competitions.
- **Professional** (experienced dynamic shooter) is applicable for all shooters, which have already participated in dynamical shooting events (e.g. IPSC-Shooter).

The match management keeps track of selections and will reassign the participators, if wrong selection is suspected.
